Buying guide - Space partitioning

We offer a range of flexible, technical and aesthetically appealing solutions, adapted to your specific needs and work environment

- Reduce the impact of ambient noise and visual distractions from your surroundings
 - Instantly define and configure highly effective and adaptable work spaces
- Create secluded spaces responding to the need for privacy and concentration, as well as favouring collaboration and communication

Benefits

Aesthetics

- Designer and subtle styling
- Coordinated with system furniture finishes
- Harmonised with choice of fabrics on upholstered chairs

Functionality

- Visual privacy when seated and standing
- Defining spaces
- Relieving workspaces of clutter thanks to desktop screen accessories

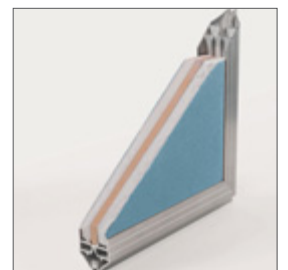

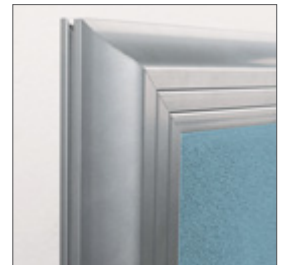

■ Open Spaces: Acoustic range

- > Fabric and mixed fabric/glazed screens
- > Rectangular fabric desktop screens
- > Acoustic back panels

Ideal for use in:

- Open space office layouts
- Meeting rooms
- Shared spaces (corridors, breakout areas, reception areas, etc.)
- Canteens and restaurants

Benefits of the acoustic range:

- > Acoustic comfort thanks to exceptional soundproofing and insulation properties
- > De-cluttering of workspaces thanks to accessories available for desktop screens and mixed partition screens
- > Effective cable management of partition screens thanks to optional cable holders

■ Small and medium work surfaces: Standard range

- > Fabric, melamine, polycarbonate, mixed screens
- > Rectangular fabric and melamine desktop screens
- > Curved fabric desktop screens

Ideal for use in:

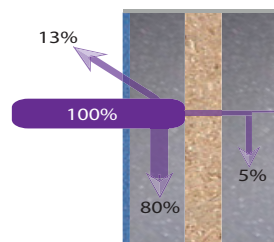

- Small and medium-sized office spaces
- Canteens and cafeterias

■ Acoustic screens

- > Profiled aluminium support frame (42 mm thick), 2 choices of finish
- > Screen is composed of: 2 layers of fabric stretched over and applied to linear wedges of 15 mm thick melamine sound absorbing foam, rated M1 fire-resistant. These in turn are glued to a central 10 mm thick MDF soundproofing panel.
- > Glazed sections comprise 5mm thick transparent toughened safety glass, facilitating interactions and favouring a brighter environment.
- > Optional accessories can be fitted to the median section dividing mixed fabric/glass screens, facilitating storage of office supplies and documents: Puebla accessories (see page 141)
- > Configuration of 2, 3 or 4 screens in line, or in variable angle layouts thanks to plastic connector elements (supplied).
- > Adjustable stabilizer feet.
- > Number of stabilizer feet required is determined by intended screen layout:
 Linear layout: 2 feet required for every starter unit, then 1 foot shared between every 2 add-on screens. In case of 2 screens at an angle, T-shaped layout (3 screens) or cross-shaped layout (4 screens), no stabilizer feet are needed.
- > Castor-mounted feet for screens must be purchased in sets of 2. A set of 2 mobile feet is composed of 2 fixed stabilizer elements and 4 castors.
- > Optional cable management channels
- > Height: 160 cm (from stock) and 200 cm (on request)

Soundproofing and insulation

Average sound absorption rates for carpeted space with false ceiling. Subject to change depending on surroundings.
