

SHADE CARD

PLAYING WITH COLOURS AND INJECTING STYLE INTO YOUR FURNISHING PROJECTS

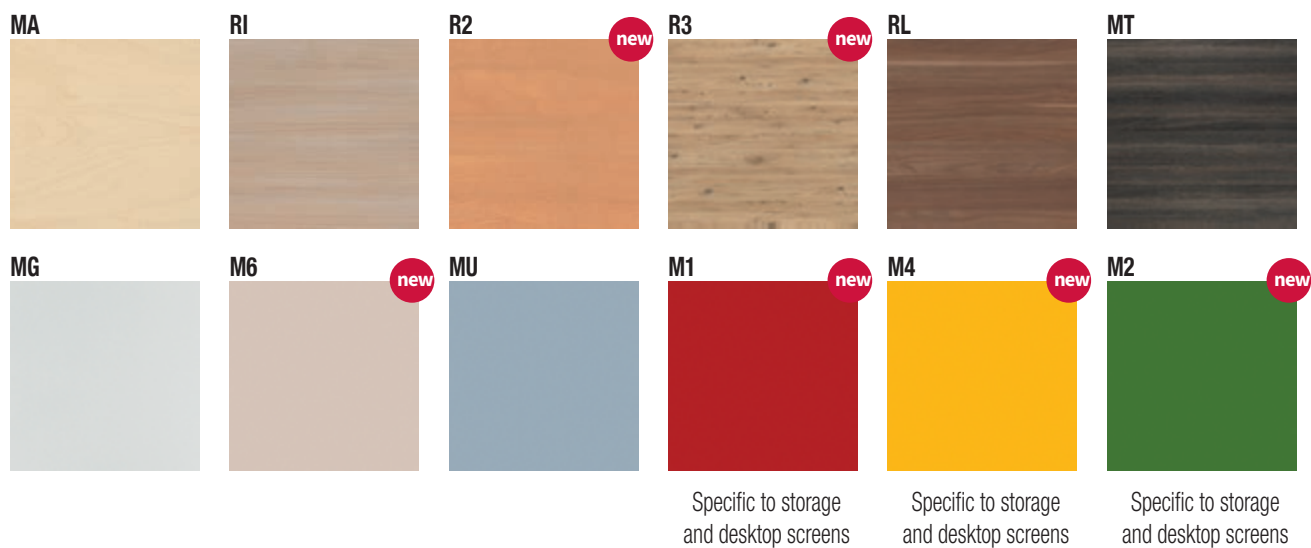

Whether the ultimate objective is to promote well-being, interpersonal exchanges, concentration, creativity or relaxation, the modern office has everything to gain from leveraging the power of colours. If, for instance, you want to encourage enterprise or stimulate exchanges between employees, ideally you will lean towards warmer colours (red, yellow, etc.). On the other hand, if you are looking to create an atmosphere conducive to reflection and contemplation, we recommend opting for colder colours (dark blue, green, beige, grey etc.).
