DESIGN?

Modern desks designed with ergonomics in mind.

SPACE?

Choose from various sizes in single, double, and radial desk options to find the perfect fit for your office.

BUDGET?

Quality desking at affordable prices for both home offices and large scale projects.

Discover our range of sit stand desks

DESIGN

Our range of sit stand desks are designed in a sleek and modern way. With a large selection of top colours and sizes to choose from you can coordinate your new desk with your current office interiors. See page 37 to view our selection of desktop colour options.

SPACE

Leap, Zoom and RoundE desks all offer an option of 1200mm wide desktop which will conveniently fit into most small or home offices. However, if you do not have the space for a new desk, we also offer Desk Converters which allow you to make any desk you already have a height adjustable one!

BUDGET

Within our range of sit stand desks we have options for every budget. We offer affordable sit stand desks to suit any project from home office to large projects.

LEAP

Leap is our largest range of sit stand desks with many variations to choose from including - single, radial, bench and k top. Plus each user can adjust their own desk height individually via the memory master control unit.

ZOOM

Perfect if you are looking for a single desk, Zoom offers different tops widths from compact to spacious.

RoundE

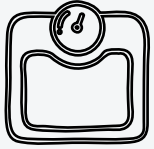

Compact & stylish, RoundE offers a modern look and feel along with all the usual features of a sit stand desk.

DESK CONVERTERS

Perfect for users that don't have a lot space - pop one of our desk converters on your current desk and you're all set!

BENEFITS

LOWERS RISK OF OBESITY

Using active workstations will keep you productive, while also keeping you in shape.

BACK PROBLEMS

Several studies show that standing desks can dramatically decrease chronic back pain caused by prolonged sitting.

MOOD AND ENERGY LEVELS

Standing desks appear to have a positive influence on overall wellbeing.

STANDING MORE CAN INCREASE YOUR LIFESPAN

Studies have found a strong link between increased sitting time and early death.

HEART RISKS

People who sit for more than 8 hours a day, double their risk of developing heart disease compared to those who sit for less than 4 hours a day.

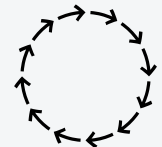

BRAIN ACTIVITY

If you stay fixed in one position, insufficient oxygen-rich blood will be pumped around the body, causing brain function to slow down.

MUSCLE PROBLEMS

If you stay seated all day, your leg muscles and gluteus muscles will become inactive, thus reducing your ability to sit up straight.

POOR CIRCULATION

Remaining seated for too long may result in swollen ankles and varicose veins, caused by fluids sinking down into the legs.

SIT STAND DESK TOP OPTIONS

Sit stand desks provide many benefits to employee health and productivity. The height adjustable desks can be electrically adjusted to sitting or standing height to prevent problems associated with prolonged sitting at the touch of a button.

The range of desking includes a single stand-alone desk, bench desk and radial desk with plain, portal or dual scallop top options.

PORTAL TOP

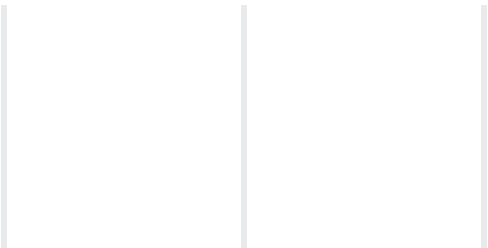

The sit stand portal top option enables users to organise and manage cables to create a tidy work surface. Users can securely feed wires through the portal to create a tidy work space.

DUAL SCALLOP TOP

Dual scallop top allows the user to have the cut out located at the front or back of the desk. The front offers comfort for the user when sitting or standing at their desk whereas the back allows the user to organise cables.

PLAIN TOP

The plain top gives users a seamless and sleek option, perfect if you are working off a laptop that doesn't require a lot of cable management.

LEAP

WEEE - DID YOU KNOW?

Leap products are WEEE certified (Waste Electrical and Electronic Equipment). WEEE Ireland is a not for profit organisation, committed to delivering cost effective compliance since 2005. WEEE Ireland represents 74% of the electrical and electronic industry who have a Producer responsibility under the WEEE Directive 2012/19/EU to organise and finance the environmental management of their products at their end of life.

Since September 2008, all producers that sell electrical goods must take back the electrical products for free recycling. This is part of a European Directive which came into force in 2008, to encourage recycling across the EU. WEEE Ireland has been the Scheme of choice in Ireland maintaining majority market share across all sectors and operates under the approval of the Minister for Communications, Climate Action and Environment.

Any electrical goods you purchase from us we will recycle for free at the end of their life cycle. By being WEEE registered we can help make an environmental difference by:

- Reducing the amount of waste going to landfill.
- Save the planet by reducing the effects of the hazardous materials in WEEE.
- Conserve natural resources as materials such as plastics, glass and metals are recovered for use again in the industry.

LEAP

FEATURES

- 1 Designed to give you the perfect ergonomic workspace with its ability to effortlessly transition from a sitting height to a standing height position in seconds.
- 2 Anti-collision software is built into the control box of the desk, this prevents any potential damage or injury by ensuring that if the desktop meets an obstruction, as a safety feature, it reverts.
- 3 With just the touch of a button, the precise + / - buttons panel allows effortless movement of the desk from 595 - 1245mm max in height. The LED also displays actual desk height.
- 4 The Leap desk frame is designed for smooth, fast movement, with a lifting speed of 40mm/sec for effortless height adjustment while you work.
- 5 The frame movement is smooth and silent. The desk operation creates noise levels of less than 50 decibels to make sure that no one gets disturbed while you adjust your desk's height.
- 6 The handset includes options to set a minimum and maximum height, a memory button with 3 programmable memory positions, settings to lock the handset and options to set the sensitivity and retracted height.

LEAP SINGLE DESK

A stand alone height adjustable desk that is available in a range of widths which allows you choose the best size that fits your office space!

Stocked Frame colours:

LEAP BENCH DESK

Just like the LEAP Single but double, perfect for large offices as there can be two users on each bench desk. Adding a screen can ensure that each user gets privacy and then still have the option to sit or stand while they work!

Stocked Leap Bench tops:

Available to order tops:

Stocked Frame colours:

LEAP RADIAL DESK

Leap Radial desk delivers a spacious workspace without taking up too much room and fits in perfectly to corner spaces. The curved top allows the user to sit closer to the desk while working, giving them a more ergonomic position and good support on the arms.

Stock Leap Radial tops:

Available to order tops:

Stocked frame colours:

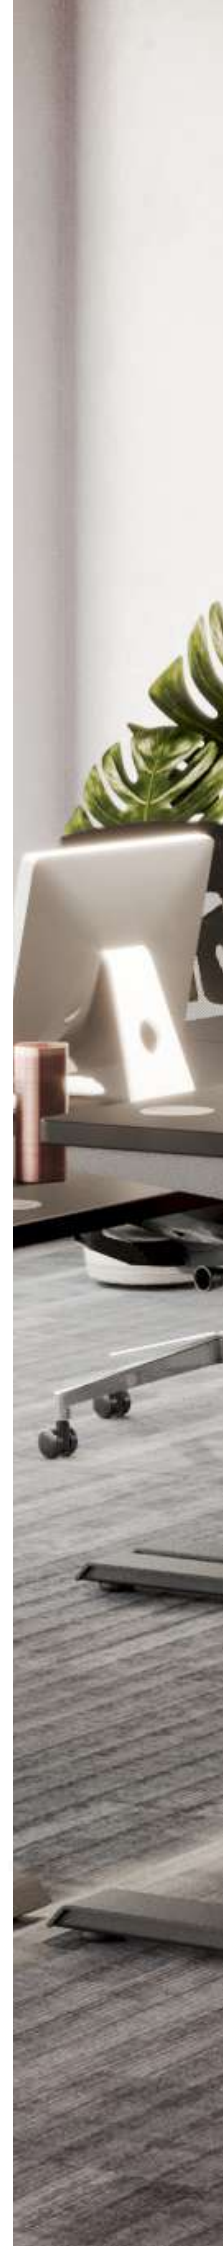

LEAP K TOP DESK

The K top desk was designed to allow for more usable space on the right or the left hand side. The K Top is also ideal to fit into corners or cluster together to maximise office space.

Available to order tops:

Available to order frame colours:

LEAP APP

Control of your desk height through your phone.

The Leap App includes the following features:

- Adjust the desk height
- Set memory positions
- Create daily standing goals
- Track your daily standing progress throughout your work day.
- View your historical data
- Set sedentary reminders

To get started simply search for “Leap Desk” in the App store or Google Play.

Once downloaded you can connect the app by pairing with the desk Dongle (sold separately) via bluetooth.
